Clarification requested as proropsed

5.3.3. At any time an Active Member may appoint a substitute [who may take the place](#) of the official Delegate or Alternate Delegate if those individuals are prevented from attending a meeting, if the official Delegate is elected to the presidency of the Commission, or if either the Delegate or Alternate Delegate is removed from office in his home country.

Proposal for amendment:

5.3.3. At any time [only](#) the Active Member [of FAI](#) may appoint a substitute or replacement for the Official Delegate or Alternate Delegate,

[5.3.3.1 This appointment affects only the function of the Official Delegate or Alternate Delegate. It does not automatically include any assignments or positions of the replaced/substituted person\(s\).](#)

[5.3.3.2 Termination of the status of a Delegate or Alternate Delegate will end all assignments or positions connected with this status.](#)

Explanation:

Only Active member means, that only the actual member organisation to FAI is considered to be the appropriate partner and not necessarily all other entities to which the Active Member has or had delegated executive powers internally in ist country. Otherwise, it is not really transparent to others, if any action is sanctioned by the NAC. Also, not only insiders within the FAI will know, that the legal partner is supporting the action taken.

[who may take the place](#)

this wording does not make clear, that a substituted/replaced Delegate could be in the „place“ of a Vice President , a Chair of a Discipline Commission, a Chair of a Working or other internal ASC etc. at the same time.

All other parts are covered by this:

- being prevented from attending a meeting
- being elected President
- being no delegate any more
