We have had one class first event in this period. There was 17<sup>th</sup> World Rally Championships in Slovak Republic. The President of International Jury Jiri Dodal sent report from this event to President GAC Pedro Cabanero.

The championship was very well organised. My personal thanks and congratulations to the entire organisatory staff in Dubnica, especially to the Competition Director Jan Chudy.

Thanks to the Jury for their help and good co-operation. Many thanks to the international and the local judges, and to all the honorary helpers from the Dubnica for their excellent work and for the friendly agreement.

In general there was a very good atmosphere among the officials, the competitors and their team managers.

The national rally championships have been done in some European countries. We don't reports from that's events.

After 17<sup>th</sup> World Rally Championships we had one meeting in Dubnica and we discussed about changes in Rally rules but we were not changed.

On the present meeting we changed only one point in the rules A.3.2.6. b) given restriction about used maksimum 5 arc in the one stage.

The Rally Subcommittee recommend that change to put in to the rules.

The next discuss about Rally Rules modification is expected after next European or Rally World Championships. The Rally Subcommittee will prepare the questions to the competitors about the change.
